

## **Quantum Removal of Infection - Part 2 of 5**

Hi and welcome to quantum removal of infection. Oh my goodness. Many of you have already signed in. Fantastic. So, the gang's all here. We've got a lot to do today. We're going to be working on viral infections. I'm going to just show you real quick the chart so you can get started right away and then we'll have our traditional start of class.

I just literally finished. Got our list of students an hour ago and it's been working away on really these things that are really specific to you. You're going to be doing doorknob during this training and you can see that it's a good sized chart. I'll put this in later. Actually, I'll put it in now too. Doorknob though. Everybody doing doorknob please and then we're just going to go to our traditional way of starting.

Okay. Let's see here. Mother, father, god we ask for your present on this call and your presence with each person in attendance. We ask for a complete miracle for each student and that is viruses are problem with them that they get their information, they get their transformation, and they get their healing today.

We ask for the most deep and profound healing that you can possibly share with us and we are that our skill level increase and that our abilities increase that we clear any interferences, entitlements, walk ins, sleep invaders, anything that's been interfering with our getting our miracle. We ask that those clear out today once and for all.

We ask thank you for all the miracles we have experienced in our body. All the proof and the evidence that, yes, transformation is at hand. We thank you for inspiration of new ways of dealing with things and new ways of looking at things. We thank you for your presence. Angels, golden legions, guides, gods, goddesses, saints and sages, Jesus and Mary, and all those who stand with us to get this work out in to the world, we thank you.

We thank you for holding a space for us. A great Stonehenge. A great circle surrounding us. Keeping us safe. Uplifting us. Keeping us in that highest level of quantum field and the field of transformation. We ask for ease and grace especially for those who are newer in their training that they may find a relaxed peaceful way to join in even though they don't know everything right now about what everything means.

That they feel easy. That they feel relaxed. They feel that they're in good hands and they can just relaxed and trust and get to work and have their natural curiosity show up especially when it's important to show up.

And we thank you for the healing for the newbies. And your healing for those who have been working at it for a few years and are ready for a miracle today. We thank you for the air we breathe, the water we drink, the food we eat, the people who we love and who love

us and who really get us. Thank you, god, for giving us those people in our life that really gets that love us as we are.

We thank you for healing isolation those for who are experiencing that sense of isolation. We thank you for removing that from the field today. We thank you for all the love and all the presence, and all the miracles we've already experienced and are experiencing in our future. Amen.

"I am free to live a life of spiritual freedom and full self expression liberated in love, gratitude and mastery in my body here and now. My spirit is limitless. I'm responsible for any limits I experience in this body, and have completely access to the divine through prayer and contemplation to release myself from any human bonds I have worn as spiritual clothing that no longer resonate with my essence."

And then our opening blessing-- a call to lighten-- and that is what we are doing. We are lightening. We're letting go. We're releasing viral infections today. "Soft the night and sweet the spirit, Gentle voices call our song, We are magic we are wonder, When we live beyond the veil. Human kind please raise your thoughts, Bring a plane of peace and love, We the guardians of the pilgrims, We the authors of the play."

So, we are working on quantum removal of infections and today is class two. We are removing the viral infections. And the opposite of viral infection is love. So, love can be really the healing bomb for viral infection. In today's training, we're going to be both removing programs and allowing the viral infection that's embedded in the body. Removing the spiritual interferences as well as removing the infections. So, we're going to be really doing a big clean out.

You'll get directions on how to clear out when you're done and how many days. So, that'll be towards the end of the class. I've already got that mapped out for you. And how many clearings you typically would need to do to clear a viral infection.

And what was so interesting, I have to say-- I'm going to go so that George can see my face. What was so interesting to day, as I was creating the chart, I started looking at viral infections very much like we're looking at the anchors and interferences and how we need to start mapping the infections like who brought it in; how long it's been here; what is it doing; why we have the viral infections, because viral infections are not natural and we start looking at the chart, you're going to see the chart surprisingly-- we'll, let's go ahead and look. We can start talking about that.

So, I'm thinking that although this is the way to clear. This is what we need to do. We might take the top worst. Maybe five viral infections and sort them out. Kind of like we do when we do interferences and when we do anchors and look at are they taking energy from us; are they anchored in with nanotechnology. There was a lot of nano, nano, nano

stuff. Nanites. And a lot of stuff on this chart which makes me know that viruses are created. They aren't some boo boo that just surfaced. It's something that's been created.

So, it would be really good to investigate that. But let's take a look at the chart here. So, I wanted to look at the fourth column after we do, of course, the clearing today. But right, permission, and ability to be free of all viral infections in my body. Degenerative viral programs informing reducing-- information reducing my immunity, resilience to experiencing.

Viral infections permanently cleared. Disappearing anchors, interferences of all kinds, DNA influences, programs from these infections, and auto-immune components. To reset the patterns with cellular neogenesis at one hundred percent. We want to clear that right now. So, if you're in year of miracles and you got an infection that's in the endocrine system somewhere or when you come in to that class, you'll have cleared the permission to regenerate.

Wonderful. With permanent improved result. Removing altering, amalgamated, compulsive, cruel, deceptive, demonic, dominating, intertwined, intolerant, and parasitical. But let's look first at the anchors. I think that that's going to be important for us. So, embedding, cords, lucifer stops, and demonic stops. So, already, I start thinking that there's stuff that we probably need to look at also in the blueprint because Lucifer and demonic stops get imprinted in us in the blueprint.

Wow. Okay. And so if we decide to, there's sixteen things that we could do in a blueprint activation. I probably need a good fifteen minutes to get those sixteen things. So, we can talk about that in a minute here, but as we see Lucifer and demonic stops, we know that we need to look in the blueprint. Seeds, portals, ducked, clamped, wormhole, obstruction rays, holographic facade, so things that are, you know, look like something but there's something else.

Nanoquads, that's a nanotechnology with four prongs, tubes, permeations, alter ego, nanotechnology, DNA splicing, spliced in the DNA, holographic staples, scions, nano novum, implant, conduits, nanites, hitch, plugs, solar ganglery system implants, and rods. So, that's probably one of the longest anchors list that we've had on a chart. Going into the-- just never goes into the second page. I think maybe one over couple of times, but this one went well into the second page.

We also have quite a list of the advanced interferences. Almost two full pages of the advanced interferences. So, I think that it's important for us as we're clearing and really wanting to be more aware. We begin to look at how are these created and what is their purposes and why do we experience them and why is it kind of epidemic? The human papillary-- HPP-- HPV virus that like more than eighty percent of people have. And now

they're doing vaccines. I'm sure that's got DNA splicing with it. So, not exciting, but why? Why is it so rampant and who created it? I think that's where I begin to kind of question.

Bacterial infections. We have bacteria in the body. So, when the bacteria gets out of control, we get, you know, something that's infected, but we need healthy bacteria. So, but with viruses, I don't think that viruses are natural or normal or healthy or what we look for in the body. We don't look for viruses in the body in a healthy way. We likely do with bacteria. So, I think that that's something well worth investigating.

So, let me say good morning to people. We're doing the doorknob. For those of you who are newer to our trainings, the doorknob is the hand facing forward and facing in and the fingers are wrapped around as if wrapped around the doorknob. So, we're going to do this. This is the doorknob.

You could also, if you want to, do chopping. I saw that they were pretty close neck and neck effective. So, if chopping feels better to you, then you could do chopping. So, they both came up as good for clearing and I suspect that doorknob is used really specifically for specific kinds of viruses and chopping used for specific kinds of viruses.

That would be another class where we had like the top ten viruses that are on the planet. We had, you know, really just mapped out viruses: where they come from; what their anchors are; who created them; why they're here; what are they doing; are they draining our energy; you know, are they gathering information.

I just start thinking that this is just you know, really more mapping that we could do. This is the clearing technique but wouldn't it be interesting to actually identify virus by virus like herpes. So many people have herpes and there's so much shame and embarrassment around herpes. And so many people you know, on the planet, I don't know about our audience, have HIV and AIDS and Hepatitis. Hepatitis is so horrific.

So, a lot of these really, really nasty viruses are really hard to clear it. I think that we have to really start looking in a different way. I'm sorry that it just came to me like thirty minutes before the class started because I could've started working on this already and I really do want to blast with you because I know that you have viruses that you want cleared. And if I start mapping, I won't be blasting.

So, I was thinking, "Well, maybe I could start mapping in class?" But I think what we need to do is go with what we have. What we already have mapped out on the chart which is fantastic. And then maybe take the top ten viruses that are experienced on the planet and look at them like spiritual interferences. Ask the same kind of question: where do they come from; how long have they've been here; why are they here; what are the anchors that are used. So, that's my feeling.

It just came over me like I have to do it. So, the little trick right at the moment with me is finding the time. Given we've really got a heavy schedule with trainings and also the adoption is moving along. There's a lot of things going on here. But, I would hope that this week, I could get that started. So, yeah. I think I can just go by what people have asked me in the past. I think the things that I've listed here; it's just not natural.

It's just-- and it keeps us-- it keeps our eye off of enlightenment and if you have a bad-- the virus-- your whole life is about to have virus. I promise you. You are altering everything and doing everything differently to try to live through the virus. And so you know, live beyond the virus. Try in so many doctor prognosis as you can't live with this.

I remember being told with the mycoplasmas that I had. You can't actually ultimately live with this. They've eaten away the nucleus of your cells and you will die. But most people die. So, the pain receptors were on all the time. That was part of my problem was that nucleus of the cell was eaten away on all the cells, and then the pain receptors were on full blast all the time and all the cells with my body.

And the doctor's said, "There is no hope for you. And there is no cure." They said, "What we found is that we can kind of like chemotherapy. We give you all the antiviral and antibacterial, antibiotics that we have, and we give the highest doses." But what happens is people are no longer able to eat. They become emaciated. They become skeletons and eventually die from the treatment after two or three years.

You still end up with not having the cell regenerated and you still end up with not having the nucleus of the cell. They just keep blasting and blasting to try and kill the mycoplasmas. So, what I've done and I learned to do and I took the mycoplasmas out of my body and I grew the cells back. So, I don't have pain receptors on full blast and I have nucleus in my cells again and I did that using the quantum field. But I'm going to tell you that doctor's don't believe in that and maybe we have some doctors on this call and I'm delighted that you're here. But the traditional western medicine says, "No. That's not possible. That is just not possible."

And so we look at things and we get told that's just not possible, I think about the DNA obliteration that I did for a lady-- a very close friend of mine-- Kate. Cecilly Kate from Scotland. And she had breast cancer DNA just big time in her body and she had a three year old. She was forty-three. She had a three year old and she said, "I don't want to die like my mom, my aunt, and my grandma of breast cancer."

And I did the DNA obliteration for her and this was very early on in our learnings about DNA obliteration. She went back to the doctor and the impossible happened. She had no DNA cancer. She had no breast cancer DNA in her body. That was just like an impossible thing. And I think about the doctor's saying to me, "Your eyes can't get better." I wear glasses from eighteen to forty six. And the doctor just said, "That's just not possible."

Someone must've made a mistake." Or your tonsils have grown back. Well, I had my tonsils removed at three, and at forty-six, I grew my tonsils back. That's just not possible. Or a colon being grown back. That's just not possible.

And so we look at and that we think, "Well, I think what we need to start doing the impossible and looking at the source of it. Why it's there?" It's very-- viruses are very nefarious. Nefarious. They're very nasty, mean, malicious things that are in our body. And you look at all in the anchors.

Obviously, there are different anchors for the different viruses, but when that many anchor show up and then it shows that in the blueprint too. We've got some work to do. I'm so-- It's so interesting. Oh my god. I predicted this about nine months ago. I said I'd start working in more of a scientific western medicine way in August and here we are in August. And here we are asking, "What the heck is this stuff and why we found it and why is it so bad in so many people?"

And I have something to admit to you, I-- years ago, when I understood how to clear a virus, I tested myself and I had twenty-seven viruses. I mean, I was so sick. And there are a lot of low grade things but there was a lot of stuff in my body and I cleared that out and you can clear it out too.

I think one of the things you want to know though if you're in the academy, know that, for me, I've been working on this for more than ten years using this technique and I'm very healthy and continue to work on things. Like, I'm working crooked joints now and that's one that that's really a priority with me. Restoring my hormonal body. This is very important to me. I couldn't get there until I cleared out a lot of other things. Other problems.

And so don't think that everything's going to happen overnight. It certainly hasn't happened overnight with me but be courageous and determined and you will get your freedom. I promise you. You will get your freedom. So, anyway, feeling very passionate. Probably sound like a preacher but feeling very, very passionate about this next time in looking at viruses in a more scientific way taking one by one who created it. Who brought it to the planet.

And sometimes, it's been created by humans. I have to say, humans have made a mess of things and they have you know, biowars or whatever. You know, biological weapons and things like. That's real. That is real. Yeah.

We also so very sad in our house. We're obviously we're recovering but we have something happened that was really very distressing and very low demonic energy against darling Adelia who, you know, some prejudice that came through which was very hard for us on Sunday. And so we're taking steps.

But you know, it's a planet that has people of different frequencies and different vibrations and you have to look at the pain in people when they are mean and cruel and share their meanness and their cruelty and their pain with others in a way that really distresses people. And that I want to also talk to you about because I'm going to tell you a little story and it's going to be helpful. It's going to really help you. So, just hang in there with me.

So, something happened at our church. We were-- Adelia went to her Sunday school just like she's supposed to. She was an angel and she had fun and there was a meeting between services because all the pastors have left and they've got a committee too-- then they were proving it has to be voted and the committee has to be voted in.

And so we were-- Adelia and I were there and Adelia just like got ants in her pants. She's so happy to be in church. She loves it. And so she was kind of giggling and saying, "Hi. Hi. Hi." to people while the meeting was going on and that should be okay. That really should be okay. At some point, she got away from me and she was running-giggling down the aisle and that should still be okay. It's not during a church service. It actually just a corum of people meeting to vote some people in and pray that they'll be blessed so they find a minister.

We had some really shocking things happen. Somebody pointed at her. A man. A large man gave her-- pointed like this and like that and evil eye kind of thing and another lady grabbed her. Grabbed her hand. Held her really tight and gave her a big shaming. And I was in a different place because Adelia was running all over and then I grabbed her and I'm holding onto her and somebody came over-- a big man also come over and yelled at me and just yelled at how disrespectful I was.

It was really with that feeling of prejudice. We were shocked. We were just completely shocked. You know, we're in the church of god and love and there was just so much pain in this church and it's elderly people. Children shouldn't be seen out there. I understand that.

So, that shock. I went out to my car and I wept. I was like, "Oh my gosh. We can't return to this church if this is the way it's going to be. We'll have to find a church home where you know, the real vibration of Christ love is present." And then we came home. We didn't go out to lunch. We just came home.

But you know what? That man yelling through in-- it shocked me. My spirit was out of my body and two demons came in. Isn't that interesting that it was like just wanting to jump right in for my spirit being shocked and out of my body. And I saw something and if this ever happens to you in some way where you're just shocked that something happen that you completely don't expect.

I, obviously, I cleared them out but I didn't see it right away. The thing that happened is when someone is telling you, you were worthless and you don't belong here and you, you know, have no place here and then there's the prejudice going through and there's you know, just this yell kind of frequency.

What I noticed was even though I don't think it, death is better program apparently shows up and I didn't think it. I didn't think death is better. Just freaked out and sad. But that you want to really check that and see if that's happening. If you're having that flooding experience. I know, I could talk about it in emotions class but we've just finished the emotions class now we have this amazing episode where I learned something. I learned something really amazing.

And when that happens, things can reset to a lower level. Stop and get it that resets you to a lower level and you want to clear yourself right away. You want to like, "Okay." I came back and I was really-- I was so shocked and sad but I was also I'm not feeling myself anymore and when you're not feeling yourself. When you've like-- Okay. So, clearly my spirit isn't in my body and there are other things that are in there because I'm feeling you know, threaten and here we are in our beautiful home. We shouldn't feel threatened in our home and that clear out was really, really important.

Well, that's another way that things get in or things don't heal is if you're in experiences like that that are maybe abusive or traumatic and for me, I had a traumatic childhood. And so that might stimulate something showing up and ultimately, you know, what I answered him was, "Thank you. God bless you too." to this man who was yelling at me. I couldn't really hear his words other than disrespectful. I know he was yelling a lot of words.

People who really yelled at you. Adelia got shamed and I didn't hear the words. I don't think I was meant to hear the words. I think I was meant to stay in my heart space and just say, "Thank you. God bless you." Meaning, thank you for giving me your pain. I understand you're in pain. I wish for god to bless you.

And then I sent a message to the children's director who had seen it. She's witnessed it. We've gotten calls from all the ministers of the church and lots of apologies. I said, "We're just going to unplug from this church. We're not going to be part of this church anymore but I love you and appreciate you and you've been absolutely wonderful with Adelia and I and we thank you."

"Which way could we clear in such a situation?" The immediate thing to do, Kristina, is to say this is not me. This is not me. I'm happy. I'm at peace. I'm relaxed all the time. I'm happy, at peace, and relaxed all the time. And then I actually created a chart and cleared it immediately. I can show you my chart if I have it up here. Let me see if I do. I might because I made a quick chart on what happens. Let's see if I can find it. It might still be here.

Nope. Alright. We have a lot happened this Sunday but let's see. Anchors. Document sixteen maybe that's it. Nope. Let's see if I can pull it up. Maybe it might show up in word. It wasn't personal. So, I'll try it one more way. I can show you what I did, but that was related to that and sure enough there were demons involved. Let's see. maybe in the last seven days if I can search it that way.

Let's see. Personal. No. That's personal skin. You know, I might have actually cleared it out because I didn't necessarily want to keep it. That could be that I cleared it and then I removed it from my computer. Oh no. Here it is. Church clearing chart.

Now, understand my list are going to look different than other people's list because I've cleared for so many years. So, it's going to look very small compared to charts that you usually see. But this was very significant for me to clear. And I did work on it for eight minutes. So, this is what I had here: right, permission, and ability to be love. A valuable member of a church to enjoy a friendly wholesome, and loving relationship with the community, Christ, and god. To have Adelia enjoy a respected, peaceful nature in church.

Joyful-- disturbing. I think it's distributing of others. A place where she is nourished and nurtured in her faith and understanding and the love Christ, Mary, god, the angels as well. As where I can fully be well emotionally disappearing the abuse. I had formerly suffered at the hands of some Christians. Removing, altering, amalgamated, compulsive, cruel, deceptive, demonic, dominating, harmful, illusion, observing, and suppressing.

And then it was interesting also for me as I looked at this. It's satan and demons were definitely part of this but they won't necessarily-- anyway-- in any case, satan is a demon. So, that's a demon there. And then look at here are some additional things that we're going to go into.

So, I haven't really deeply cleared myself out of nine through forty where I've gotten everything out of nine to forty. So, that was interesting. That showed up. Shocked definitely showed up. Ancestral contracts, suppression, contamination, that's really interesting. Poor body image, scorned, collapsed label. Labels like I can't be a successful woman, a mother, and be loved at church. Something like that. That would be a collapsed label where two things or three things are together and you can't have one if you have the other.

So, that was what showed up on my chart. With a church thing, you want to look at malfunction of like if you're looking at interferences, it's going to be demons and angels typically. It won't have a lot of alien stuff in it. And then-- so, I'm not angry with the church. I think there are a lot of people in that church who are very prejudice and are very much pain and are elderly people who aren't going to change and that's kind of.

When I spoke to the women's ministry director yesterday, she relayed her shock and grief for me and said she-- and she's an older lady-- saying that her, even older ladies, was just having a really hard time directing them because they're so set in their ways and they just aren't openhearted. And you know, it's her job to be the woman's director for all of women in the church. So, she was saying that she thought that it was a good move for us to leave the church.

Anyway, it was a really learning experience for me. I'm really on the other side of it and but I wanted to share with you, "Wow. So, I went into that shock and sadness and then some stuff jumped in." And then I saw look that death is better which is not something I consider shows up. You know, that's how the demons begin. So, that's kind of a trick. I have to kind of figure that out because that's not part of my world.

But that was how they got in because there was-- one of the demons was a walk in that jumped in to me and I didn't let it in. So, it got in through something related to death is better. Yeah. Exactly, Karen. That's it. So, we might be creating a church all night. I don't know. I'm an ordained minister, so maybe that's what I need to do is to create a church of high frequency people. I don't know. I'm not saying I'm taking on one more thing right at the moment. Okay.

So, let's see where we are on the chart and I know I've done a lot of talking today but I really do feel on fire with this information. I think we have to look at viruses differently. I think we have to look at them like we do spiritual interferences or anchors. And then also I just wanted to share this kind of all this awareness that came in about how it got in.

Because if you aren't, we don't go through big sadness at our house. We're happy. My family is building. We're in a beautiful home. Beautiful neighborhood and we have playmates and friends and we don't sit in the 'oh death is better'. I love my career. I absolutely adore my job.

So, that wouldn't mean that I would be in a position to get a walk in showing up and yet there was something for a day that snuck into me that I didn't welcome in. That I didn't say yes to ever and is well out of me now. So, it just looks to me like there's just a piece that we need to look at there too which I am beginning to look at. So good. Okay. So, we're going to look at the chart now.

We're seventy-two percent clear on this chart and looks like some of us are thinking you can make your own church. Thank you. Yeah. Me too. Me too. I'm thinking that too. And maybe. Maybe we could have like outdoor services once in a while. I just can't imagine taking in one more thing at the moment. But I think it might be a good idea. It might be a good a idea.

My friends, Matty and Justine, are starting a church. A plant. A church plant, I think they call it. And I just adore them but I test that it would be only fifty percent good for us. Meaning, you know, he's bringing in people. He's going to help and talking about god in pubs and I just wouldn't get the nurturing that I want or the fellowship on a higher frequency. That's their outreach and it's kind of a missionary kind of outreach. But it's you know-- I guess, what I would want is a high frequency where people are practicing the level of Christ.

"I'll come to your church. I live close by." Okay. And stream services for those of us who are not too geographically close. Alright. Alright. It's definitely a consideration. I will contemplate the idea of-- yeah-- starting a church. I have, occasionally, thought I can just do like a streaming service on Sunday morning. You know, we could just read some scripture and talk about the love of god or angels or the role in our lives and seeing and the-- you know, that would be good.

Yeah. Jenna, I'm sure that that was-- I'm sure that was what was happening between that and prejudice, I think the two things. Adelia was so happy and that was one of the things. The woman's director and the youth minister who called and said she's adorable and she was you know, being sweet and there was no reason for what was happening.

Well, they're unity churches but they really aren't Christian churches. Unity isn't really a church. It's a community. It's a new sought community and it's wonderful and there are no unity churches down here. No. They're up in the bay area. It's interesting that came up and clear the viruses. Any connection? Yes. I get a yes.

I wonder about viruses. Now, I'm going to ask some questions that I don't know answers too. I wonder if viruses keep people in low frequencies. Yup. Do the viruses them self keep people in low frequencies. Do low frequencies keep people in viruses? The low frequencies keep people in viruses.

And well, we, you know, the one thing we're not talking about is miasms which is group mind virus and memes which is group mind illness. So, those probably could also be added. When we're talking about physical viruses that experience in a physical body. But, we also could be talking about memes, miasms, curses, curses are kind of like that too. They're, sometimes, you could have a group curses going on. So, are curses viruses? Yes. They are. Curses are viruses.

Let me-- let me see on that. Because we're working on physical viruses, obviously. That's what we're working on but let me just look on our programs and brands, labels, realms, and list. Let's see. Undeserving, projection is a virus, unworthy is a virus, control energy is virus, scapegoat is a virus, meme is a virus, entitlement is a virus. This is interesting. Curses, black magic, and things we say against our self. Poor body image is a virus. Blame is a virus. Disappointment is a virus. Interesting.

What is mother's prophecy? You know, I found that just last week and I was asked about skin believe it or not. You may have a mother who is telling you over and over again. You're going to be just like me when you get older. My mother, every time I see her, she goes, "Oh. Well, you're still young but you're going to be just like me and you're going to have brown spots all over your skin." or you're going to blah, blah blah. All the time.

And she's just-- it's a prophecy thing that she's constantly doing. It's like a curse coming out of her. It's like you're going to have this and you're going to have this. You think about the hundred thousand times she goes in my mind, "No. I'm not. No. I'm not. No. I'm not." But that's-- you kind of-- she's laying a track. She's laying a track. She probably is telling her friends, "She's going to have this. She's going to have this. She's going to have this." There was-- and so that's what mother's prophecy is.

So, it's really that over and over and over and over and over and over, and lays a track in you and even if you're like, "No. I'm not. No. I'm not. No. I'm not." You got to clear the mother's prophecy out too. So, that has to come out too because she's probably talking about it when she's not with you and she's talking about it when she's with you. And that just showed up.

I'm just trying to-- I was asking questions about what do I not know. What do I not know yet? And if you've been with me in class the last two or three months, you know that that's what I've been doing. I keep asking what do we not know yet and trying to define and everything that we don't know yet like it does that impact me. It does impact me.

And why this, you know, shocking experience at church was so perfect that we'd have this you know, that was a way a walk in got into me which I never have walk ins and you know, there was this-- anyway, just-- oh. And then the death better thing I saw with the walk ins. Somehow sneaking in and me kicking everything out and looking at well, that's a way that a something can get in against your will and without any agreement.

You're shocked. Your spirit's out of your body because when you're shocked, the spirit leaves temporarily. You bring your spirit back, you calm yourself, and there's something there. There was something there. So, that's fascinating.

"My mom did a lot of mother's prophecy. It was constant." Exactly. It just needs to be addressed in the clearings if you are one of those people who had a mother that's this is you, this is you, this is you, this is you, this is you, this is you, this is you more than just this is the this is you, this your future. This is something very specific to mother's. Feel like they have the right. It's kind of like an entitlement. They're prophesying something. They're projecting something on to you and saying it over and over and over and over and over and over.

So, just literally found out like seven or eight days ago. When I prepped for the-- no. Just after-- let's see. No. It was Sunday. It was Sunday. Because I did the clearing on the church thing and then I did a skin clearing on myself. I'm just continuing to look at what do I not know. Eighty-six percent clear.

Yeah. I agree with you, Dawn. Sneak in opportunistic right. Oh. Listen. I could jump into the blueprint right now and work on the sixteen things I saw. So, why don't I do that? And then you know, if I don't address something that you feel is really important in the chat box, you could send a message to support because I think we could get most of those sixteen things in the blueprint if I go right now.

So, why don't I do that? And I'm going to get as much as I can on viruses out of the blueprint since we saw both demonic and Lucifer stops, we know, you know, there's problems there. So, let me do that and everybody keep working and I'm going to put on some music for you. Wow. This is really great class today. Just really happy with it. Lots of good stuff come into the surface.

Okay. I am back. And we are definitely still live and let me come out in this thing. Okay. I did get the things in the blueprint, the sixteen things in the blueprint and then as I was coming back, I was also looking; is there a death is better program in the blueprint and that's not the case but it can get wired in.

So, where you think you've-- like I think I've completely cleared it but I haven't just gone after death is better which is something that we were working on recently. Removing-- you know what, where in the world would that still show up and if you were really traumatized where you've thrown out in your body it shows up. So, would that be in perception? That would be in perception.

Yeah. It would be in perception and that's something that I'm going to work on for myself is just when I get thrown out of my body and the option is to get back in my body. Not have the death is better to show up. That's going to be a little project for me today. So, very good. Okay.

So, we got the sixteen things. Ninety-eight percent on the chart. We have a minute or two left on the chart. Maybe-- let's see. Three minutes left on the chart. Amazing sharing today. I will be able to take a look at the chat box fully. Sorry that I didn't say your name this morning but I love you very much and I'm glad you're here and we had a good turnout.

Although, we had seventy-seven students or something like that in this class and we have about fifty of you here. So, for those of you watching on live stream, replay. Hi to you too. Yes. I'm going to show you if you have viruses. I put it at the bottom of the chart even if I had spaced out, it was there. So, here it is. There it is.

So, viral infections. Just like we did last week with bacterial infection. If you have mild chopping, nine minutes every three days eleven times. So, that's like thirty-three days. Moderate infections chopping fifteen minutes every three days up to eighteen times for fifty-four days. Then severe infections, doorknob twenty-two minutes every day for up to seventy days.

And then you know, the other thing that I want to say to you, viral infections are harder to clear. I think if we do start looking at them in a different way, we may be able to identify why they're so hard to clear and when we're looking at that many anchors that might be the problem. However, I have to say it doesn't take that long for me when I'm telling you. This is why I'm mapping out for you.

And so one of the things we might want to be working on with you also is to increase the power of your quantum pump and that is a training that we do in the apprentice program and we do have just a one off kind of program coming up in the fall on just helping you increase your quantum pump. That people would be invited too that aren't in the apprentice program.

But when you're in the apprentice program, your skill level really does go up and so that means that you become more efficient and more effective and you need less time to do a clearing. And so for me, let's see. When I did herpes-- let's see. Herpes is three to six times for me and hepatitis, that was a long time ago when I cleared somebody who was really sick with hepatitis and I did a series for her. And I cleaned out her liver too. I did a bunch of stuff for her.

So, that was a little bit different focus. Three, four. Maybe four good clearings to get the hepatitis out. But that's me. And so I'm just-- I give you numbers for you and then what we want to do is get you more super charged like me. So, I hope that you are considering joining the apprentice program if you're not in the apprentice program. That is where I can-- even if we are not physically interacting, believe me, the apprentices are getting my attention every day, every day, every day.

So, even if you're not sending me messages, know that I'm looking out for you, and shepherding you, mentoring you on the astrals. We want to say the astral and the spirit realm or in the physical realm or whatever it is. You'll see me in your dreams. Many people do see me in their dreams working with them. So, that's where a lot of that is happening.

Okay. Good job everybody. We'll end with a song and keep pumping for a minute or two. I got a song up here. Let's see. Which song do I have up? Should we do angels call? That's beautiful. So, we'll end with a little song. Song always just resets the energy and happiness and I know we've talked about a lot of things today.

"Angels call while we are sleeping, Riding through the waves of dreams, Keeping safe our mortal bodies, While we play in astral seams. Beams of light flow from their bodies, Showing us a glimmering mirror, Walking to the world of wonder, Leaves behind all doubt and fear." And I wish you a beautiful day. A beautiful weekend. A healthy vibrant, happy experience on the planet. And may all of your interactions serve you wonderfully. I love you so much. God bless you and I'll see you really soon. Buh-bye for now.
