# Prayer

*I am free to live a life of spiritual freedom and  
full self expression*

*liberated in love, gratitude and mastery  
in this body here and now.*

*My spirit is limitless.*

*I am responsible for any limits  
I experience in this body and  
have complete access to the divine  
through prayer and contemplation  
to release myself from any human bonds*

*I have worn as spiritual clothing  
that no longer resonate with my essence.*

# Opening Blessing A Call to Lighten

Soft the night and sweet the spirit,  
Gentle voices call our song,  
We are magic we are wonder  
When we live beyond the veil.

Human kind please raise your thoughts  
Bring a plane of peace and love  
We the guardians of the pilgrims  
We the authors of the play.

# November Activation

This is a much asked for training in which we address the largest elimination system in the body (skin) and improve the hair and nails. We clear programs for all failures and poor hair, skin and nails, remove balding programs as well as anomalies in DNA for poor skin, hair and nails. All three areas will experience a full regeneration and new programing. Having beautiful skin, hair and nails adds so much to a person's confidence and joy, as it reflects a healthy happy you to the outer world.

Human hair is unique and surprisingly complex. Many factors determine how hair grows, its texture, and its color. Humans are distinct from other mammals in that hair has become a largely cosmetic feature rather than a necessity. However, some areas of hair on the human body still provide protection. In addition, the body possesses different types of hair, each with different cellular construction that provides unique characteristics and functions.

Nail

nail bed

The **nails** are composed largely of keratin, a hardened protein (that is also in skin and hair). As new cells grow in the matrix, the older cells are pushed out, compacted and take on the familiar flattened, hardened form of the **fingernail**
