Resonance

Resonance speaks to how you align with those areas of life that can influence your vibration.

The three key areas of resonance are:
Community, Family and Environment.

Resonant energy experienced between you and the community you are part of
Your unique family signature realm of clan and how you validate or resist it
And the resonant vibration between you and your environment.

Impulsive = satanic it is something you do that overtakes you in an instant, it will detract from you and others

Inspiration Divine consciousness inspiration is something that is also in an instant and idea that is beneficial and with help or benefit you and others

Different sources very different outcomes
